ENGINEERING SOLUTIONS

EXPERTS IN DENTISTRY

GALIT is a renowned medical equipment manufacturer based in Ukraine, known for its unique blend of high-quality European components, versatility, and ergonomic design.

EXPERTISE ABOVE ALL

For over a quarter of a century, the core mission of the GALIT brand has remained unchanged: to develop reliable and durable dental equipment while providing innovative solutions for dental professionals worldwide. Our commitment to the durability of our products reflects our dedication to fostering long-lasting relationships with our customers.

BRAND VALUES:

Quality: We adhere to international quality standards for medical devices.

Trust: Our actions are guided by respect, integrity, and sincerity.

Care: Our team and our customers inspire us to act with dedication and passion.

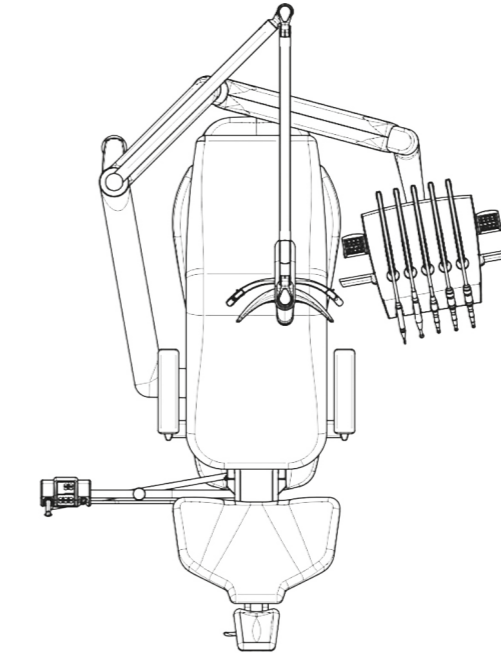

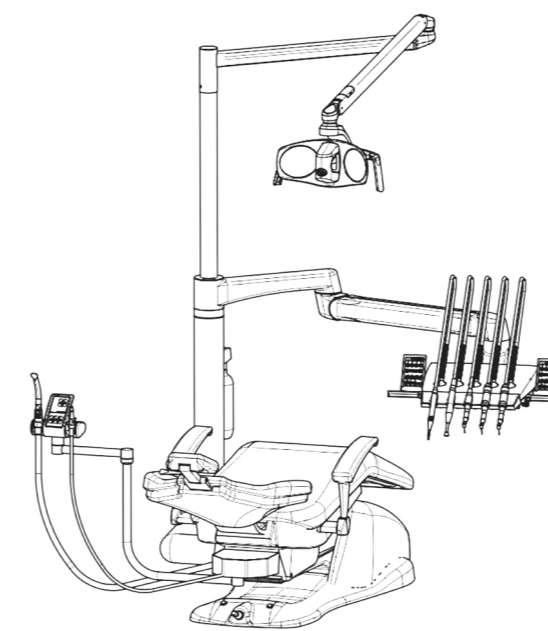

Innovation: We leverage the latest technologies to achieve optimal results.

Partnership: We collaborate with healthcare professionals and partners to succeed together.

Dedication: We work meticulously to deliver exceptional results and outstanding customer service.

GALIT Solutions for Right-handed and Left-handed Doctors

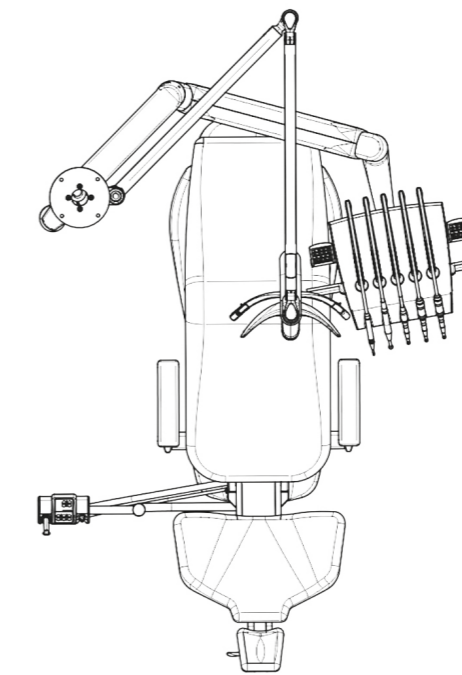

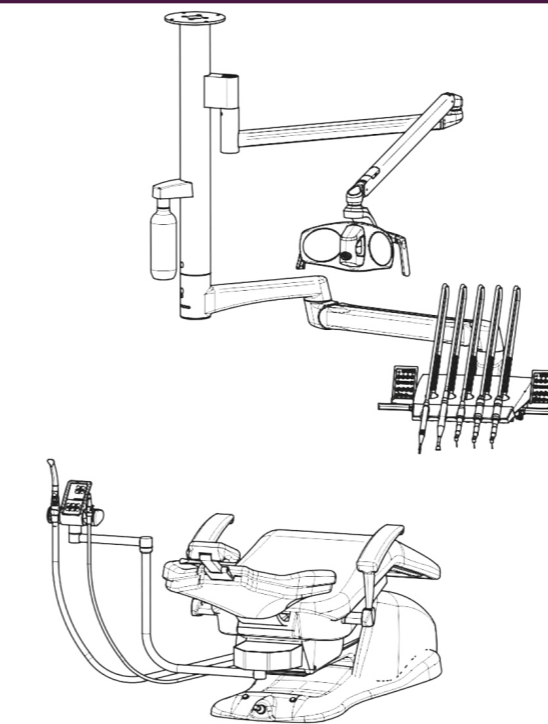

We offer versatile solutions that enable multiple doctors with different treatment styles and dominant hands to work seamlessly with the same equipment. These solutions also facilitate convenience when a doctor and assistant are working together, allowing for quick and easy repositioning relative to the patient.

GALIT Ambidextre Dental Unit

Lamp and Dentist's Module Mounting to the Patient Chair

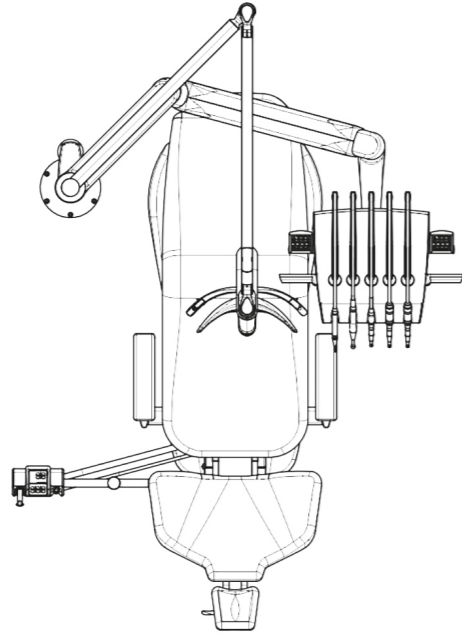

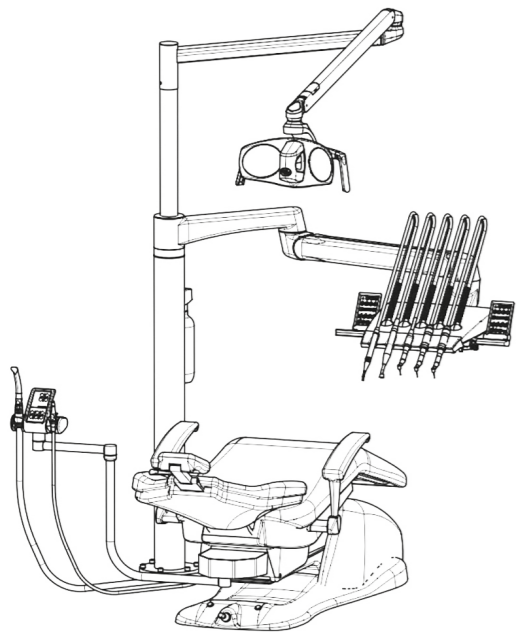

This design effectively organizes the workspace around the chair.

GALIT Ambidextre Dental Unit

Ceiling Mounting of the Lamp and Dentist Workstation

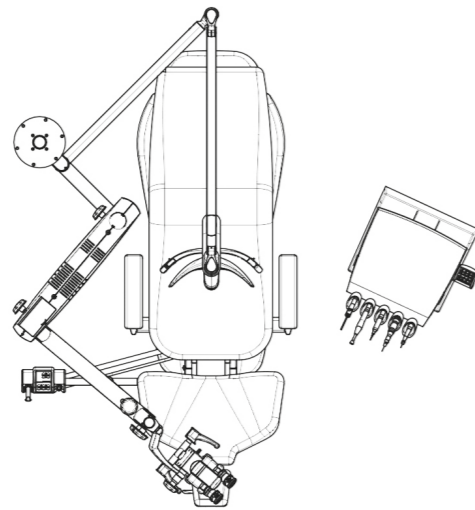

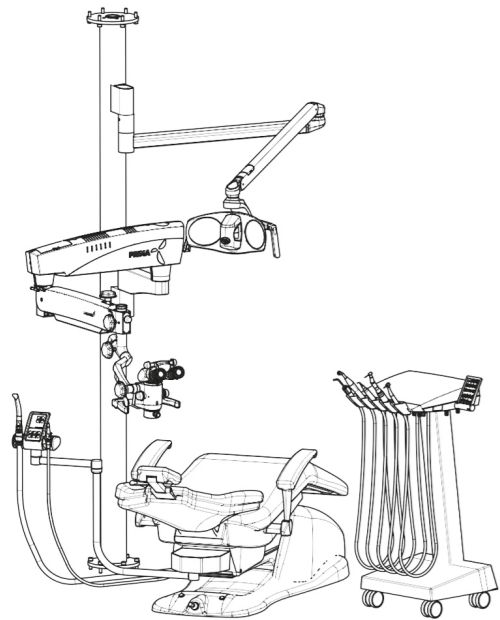

This configuration optimizes the use of space within the dental office.

GALIT Ambidextre Dental Unit

Floor Mounting of the Lamp and Dentist Workstation

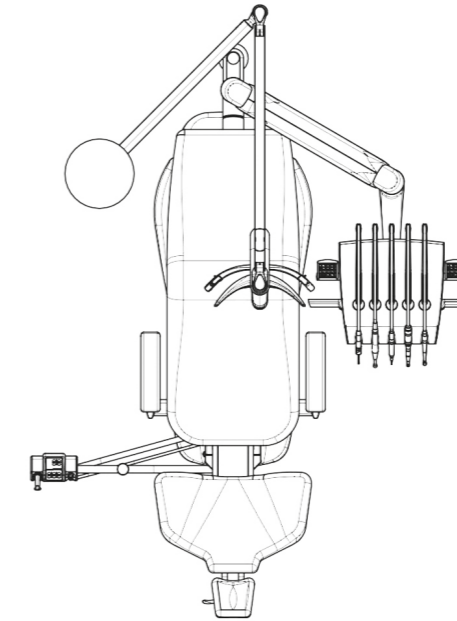

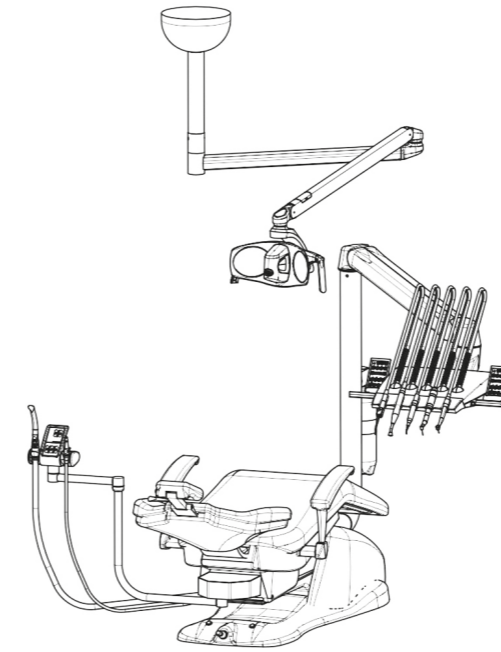

This option provides high stability and reliability.

GALIT Ambidextre Dental Unit

Floor Mounting of the Lamp with Additional Dental Equipment and Mobile Dentist Workstation

This design ensures secure fixation for even large dental equipment, such as microscopes, while allowing easy manoeuvrability during procedures.

GALIT Ambidextre Dental Unit

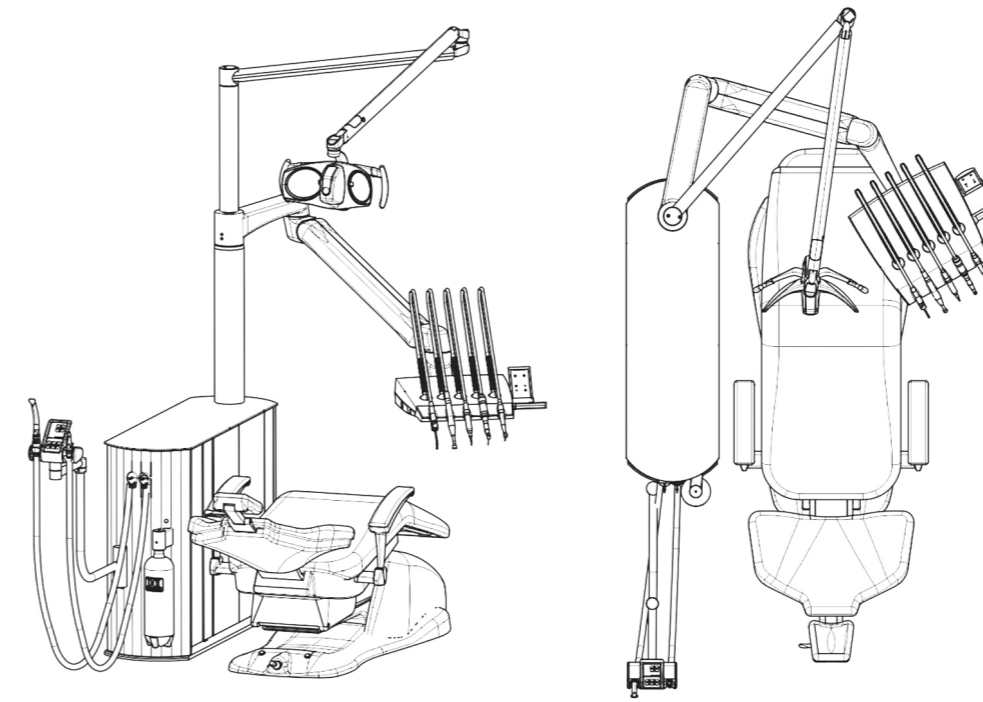

Ceiling Mounting of the Lamp and Dentist Workstation to the Patient Chair

This feature frees up space around the patient and allows medical staff to change the patient's position easily.

GALIT

All-in-One Solution

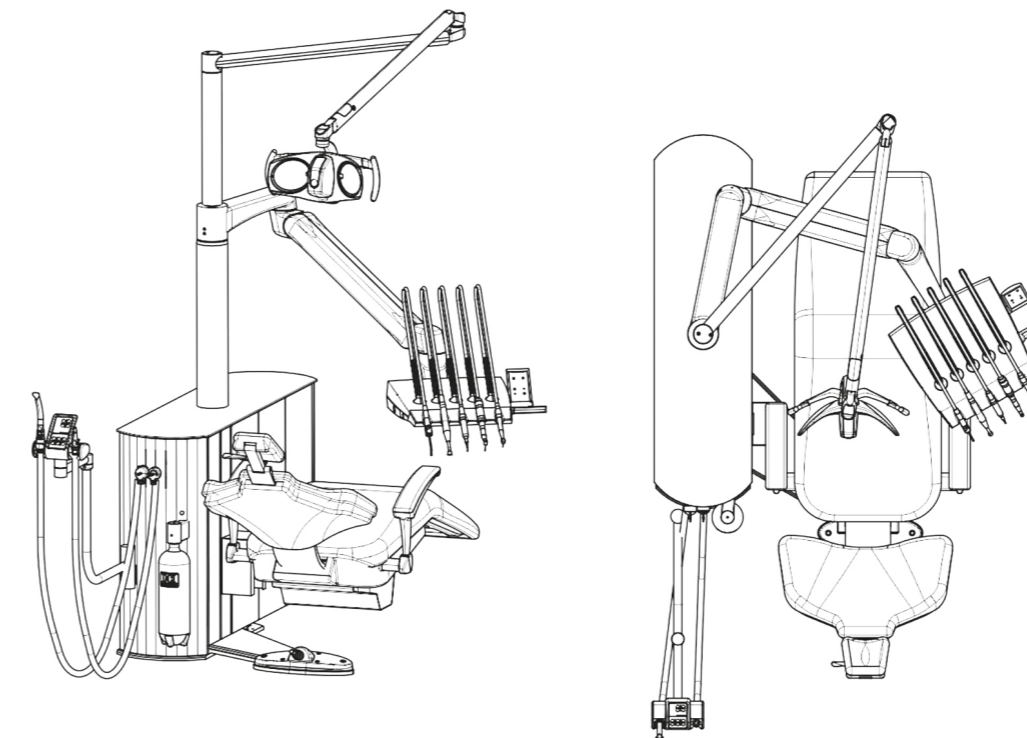

The dental unit comes fully integrated with everything needed for operation, including the compressor and suction unit. The only requirement is a power outlet.

GALIT Autonomie Dental Unit

The compressor and suction unit are integrated into the hydraulic unit, allowing the patient chair to be installed on the floor

This feature enables the setup of a workspace even in rented premises where repairs are not allowed or utilities cannot be connected.

GALIT Autonomie Console Dental Unit

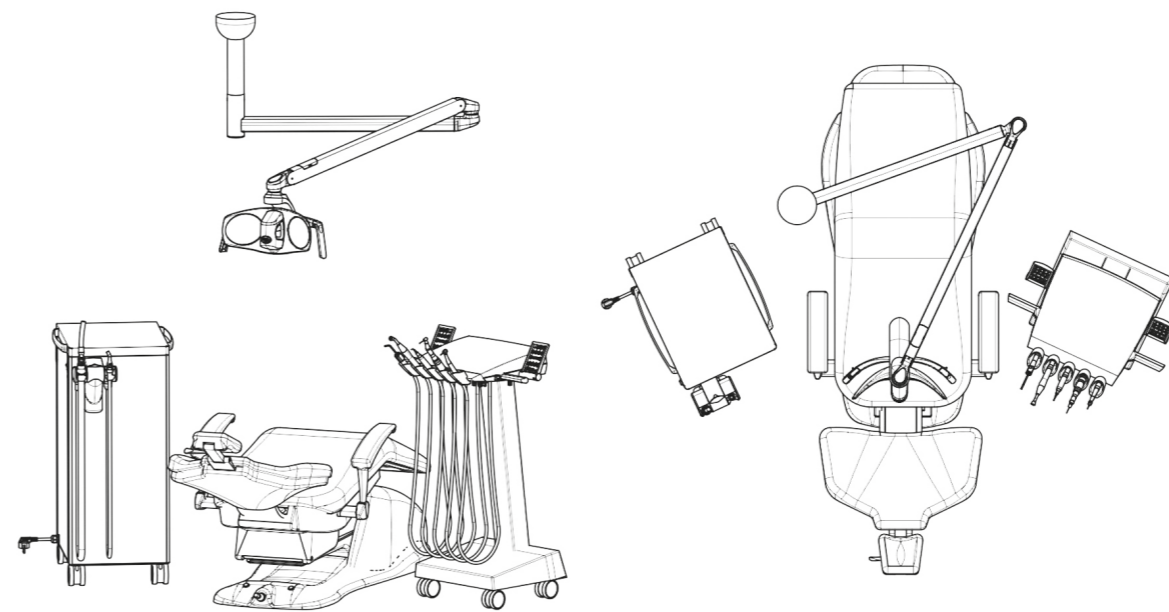

Fully autonomous unit featuring a chair mounted on a hydraulic block

This option creates additional free space for the dentist to work comfortably and interact closely with the patient.

GALIT

Modular Solutions

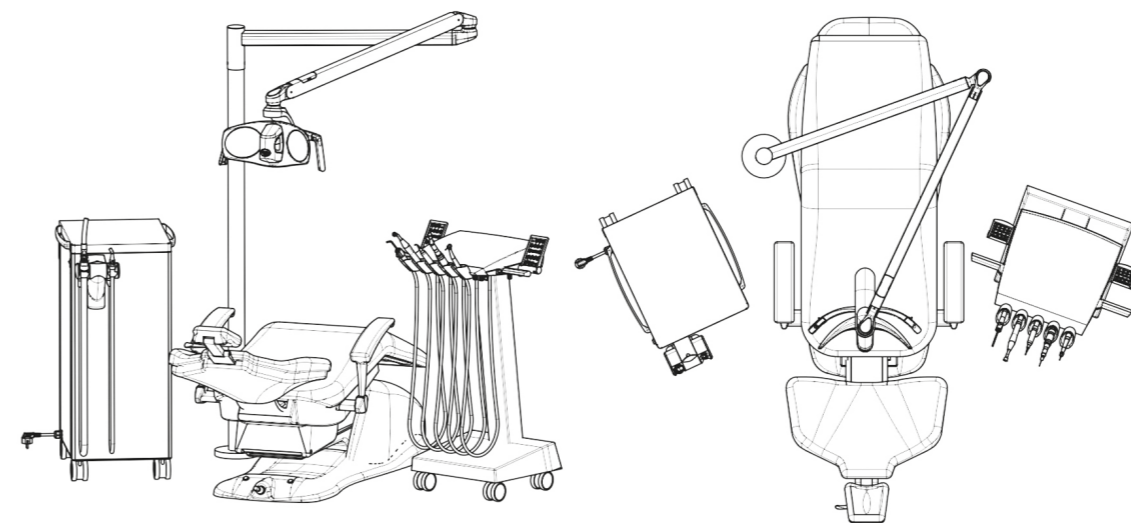

Our modular equipment allows both dentists and assistants to easily relocate and reconfigure their tools, quickly adapting to specific procedures and patient needs.

GALIT Cart-5 Dental Unit and Mobi Suc Easy Suction Device

Combination of mobile workstations for the doctor and assistant. Ceiling Mounting of the Lamp

This setup enables efficient interaction with the patient and minimal movement restrictions, thus improving workflow.

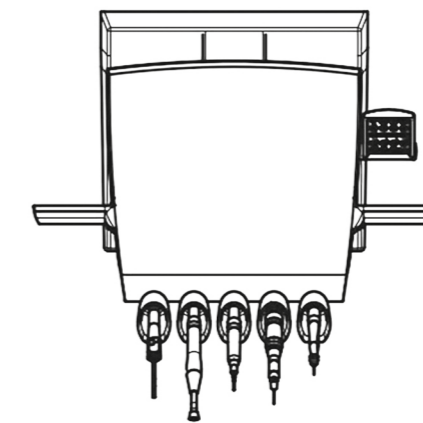

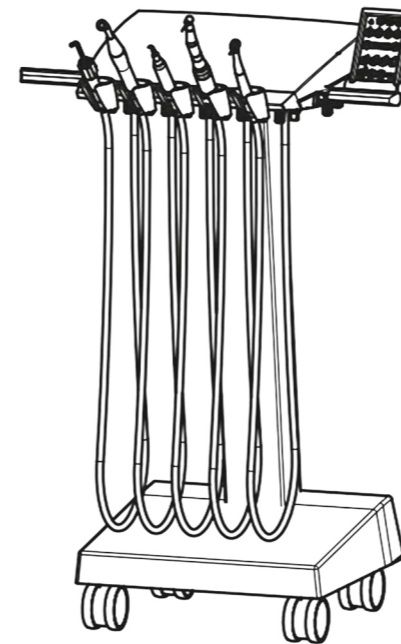

GALIT Cart-5 Dental Unit and Mobi Suc Easy Suction Device

Combination of mobile workstations for the doctor and assistant. Floor Mounting of the Lamp

This option is ideal for rooms with low ceilings or in rented offices where ceiling installations are not permitted or desired.

GALIT **Mobile Solutions**

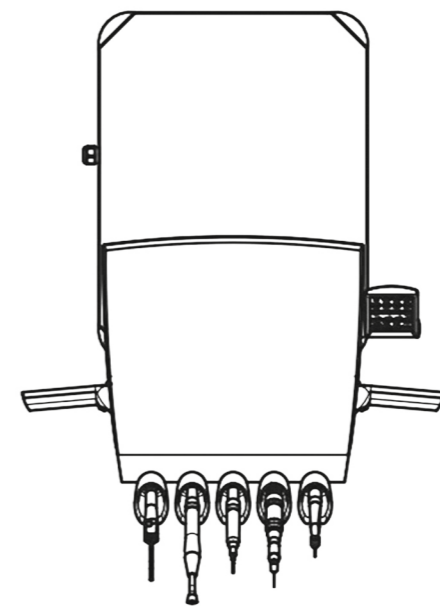

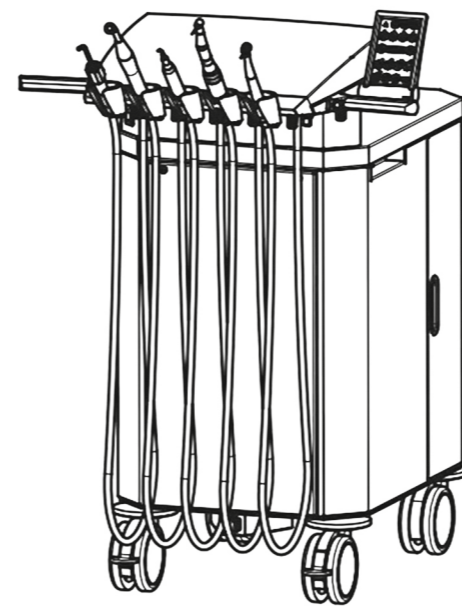

These solutions facilitate the easy movement of dental equipment between workstations and offices, eliminating restrictions on movement during treatment.

GALIT Cart-5 Dental Unit

Five-Instrument Mobile Dental Unit

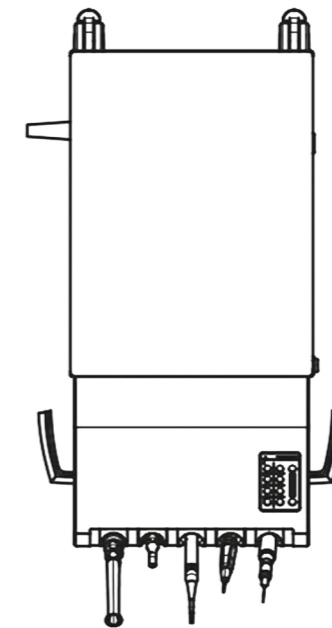

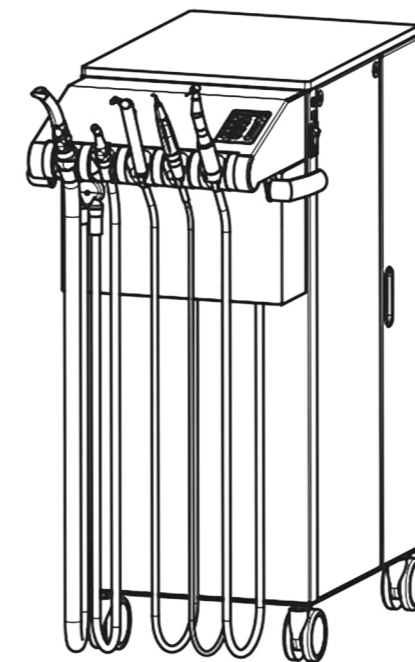

This option allows for easy positioning during patient treatment.

GALIT Cart-5 Autonomie Dental Unit

***Mobile, Autonomous Dentist Workstation
Accommodating Five Instruments***

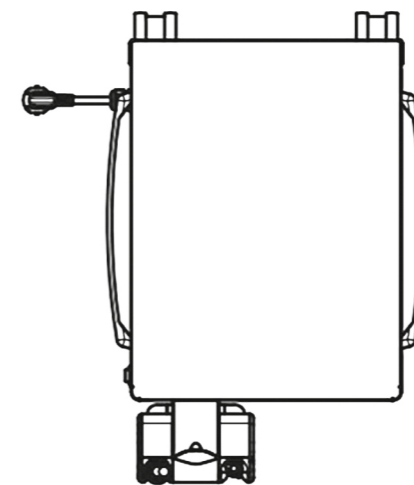

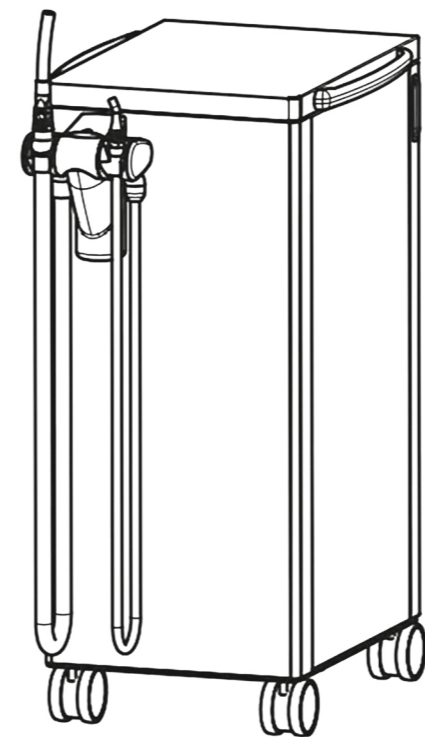

It features a soundproof cabinet that contains a compressor and a 2-litre clean water system. The low noise level creates a comfortable environment for the dentist, reducing stress for the patient.

GALIT Cart-5 Autonome ASP Dental Unit

Five-Instrument Mobile Dental Unit: It includes three instruments for the dentist and two (saliva and dust extractor) for the assistant

This option features a soundproof cabinet with a compressor, suction unit, a 2-litre clean water system, and a 5-litre secretion container, ensuring high-quality services even in tight spaces.

Mobi Suc Easy Suction Unit

Mobile Assistant Unit Including Saliva and Dust Extractors

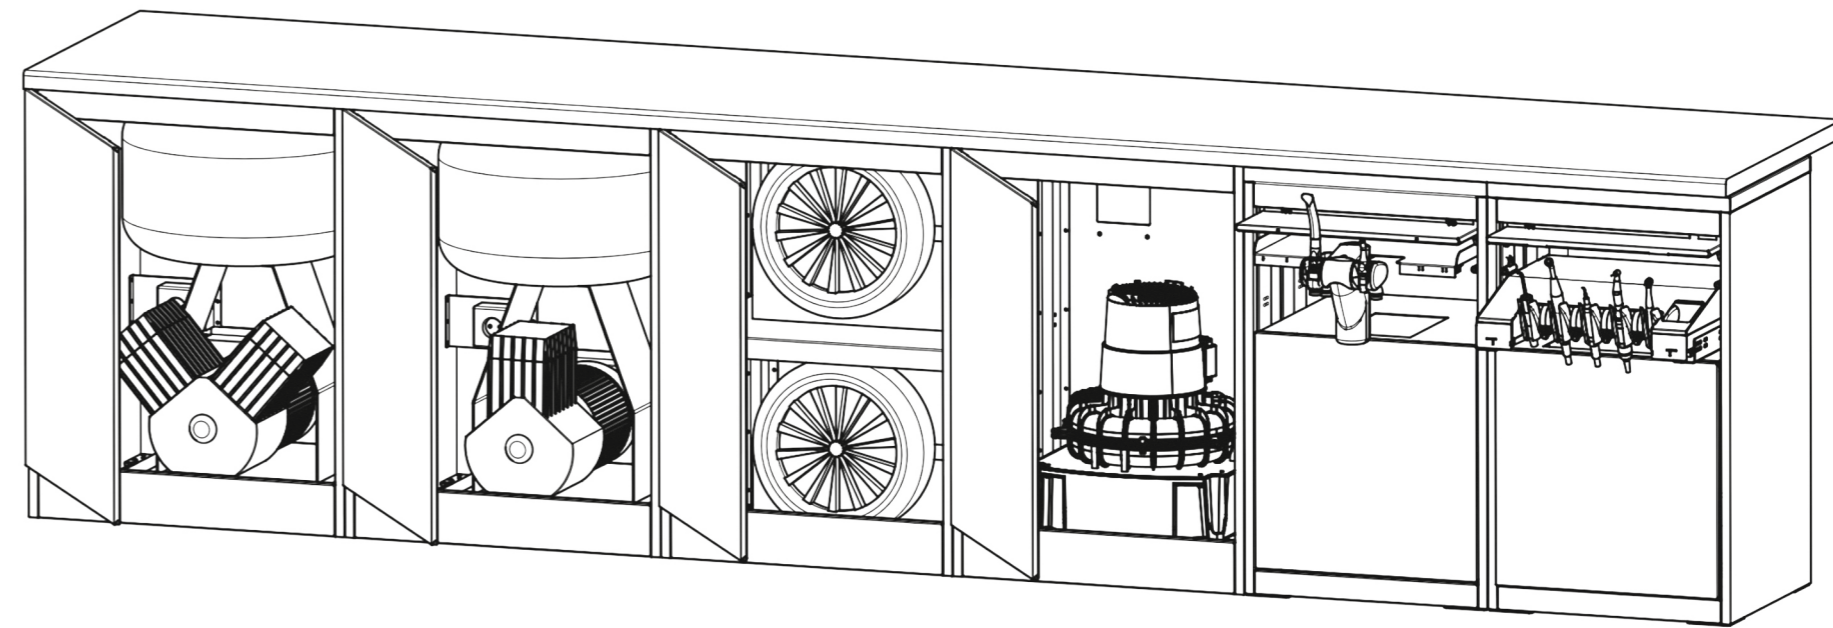

A soundproof cabinet houses a suction unit and a 4.5-litre secretion container. It is designed for easy movement and secure locking in position, enhancing workflow.

GALIT **Medical Furniture**

The GALIT range features over one hundred medical furniture modules across five collections and two product lines, available in a palette of 29 colours. This variety allows for a customized, aesthetically pleasing office design tailored to the unique needs and style of each clinic.

FREE YOUR SMILE

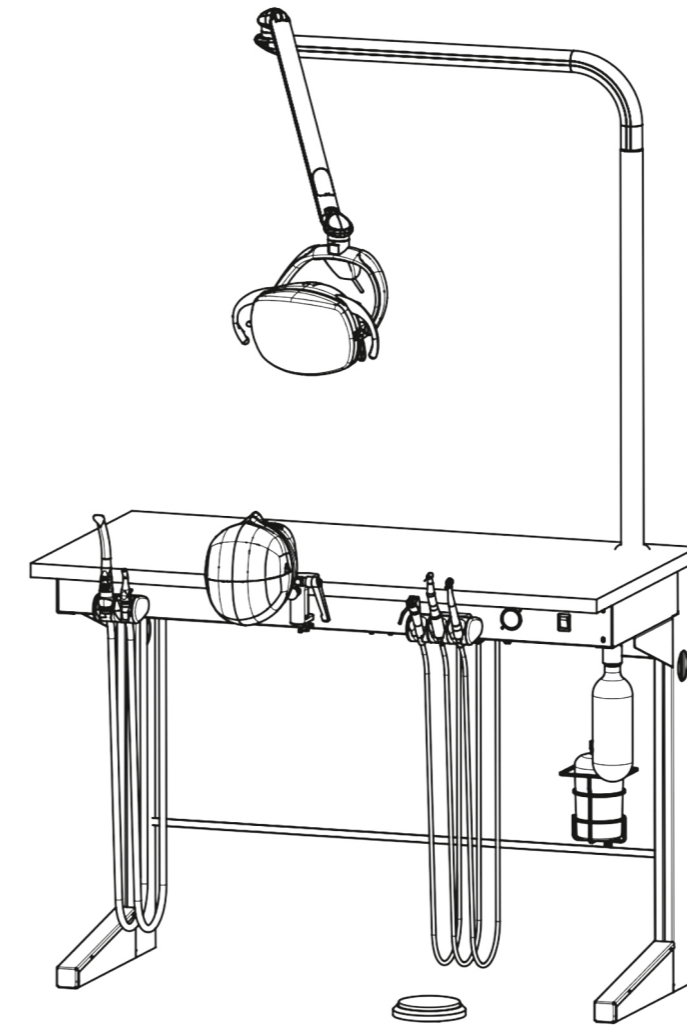

Soundproof Cabinets

The soundproof compressor and suction unit are discreetly integrated within the medical furniture modules, including the doctor and assistant stations

This design ensures quiet operation of the built-in equipment, maintaining a calm atmosphere for both patients and medical staff.

GALIT Solutions for Training Rooms

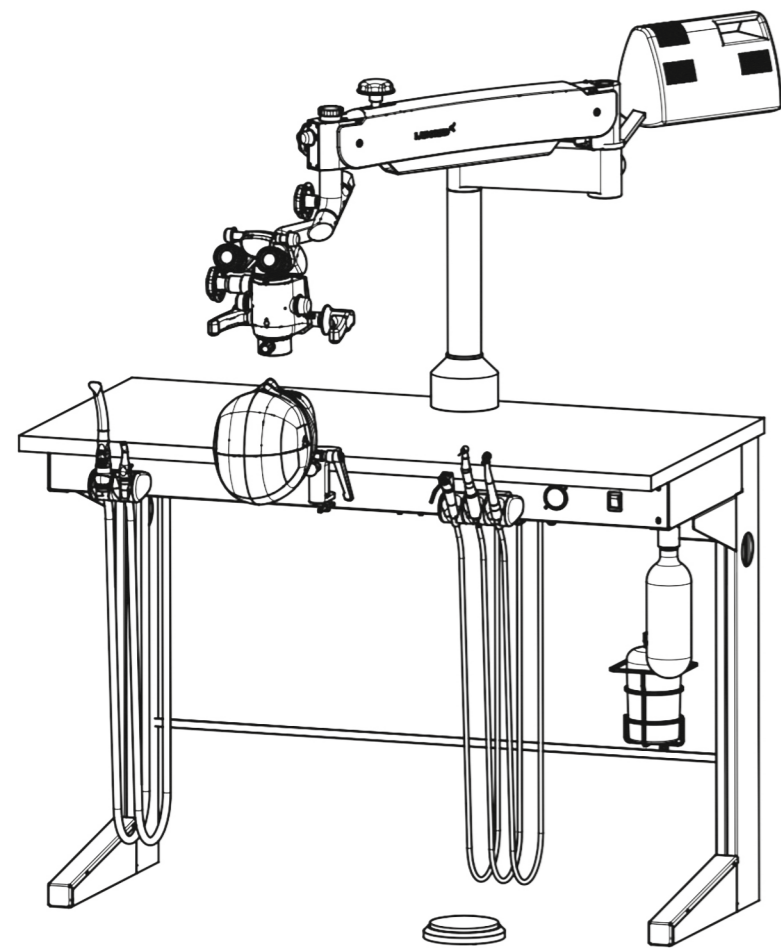

We offer a complete line of products for outfitting educational facilities. GALIT provides modern dental equipment that enables students to develop practical skills and prepare for their future clinical work.

GALIT Training Table with Lamp

This table features integrated dentist and assistant tools, a training simulator, and a built-in dental lamp

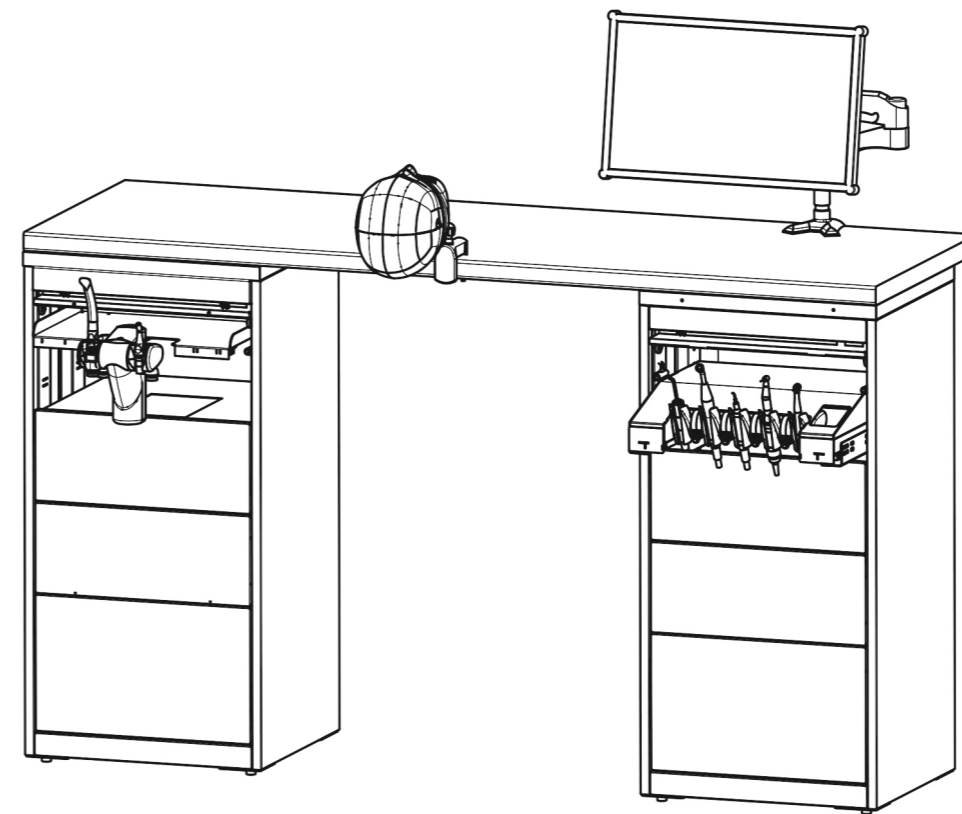

This option allows students to gain practical experience aligned with contemporary clinical practices.

GALIT Training Table with Microscope

This table includes tools for both the doctor and assistant, a training simulator, and an integrated dental microscope

It simulates real treatment conditions, providing students with invaluable experience before they enter clinical practice.

GALIT Training Table with Monitor

This table combines doctor and assistant stations, a training simulator, and a monitor

This design creates a comfortable and ergonomic environment for training future dentists.

Impressive Quality. Inspiring Innovations

The GALIT team is involved in every stage of a project, from design to implementation. When you order custom installation options, our first step is the engineering design process, ensuring that you receive a product backed by the manufacturer's guarantee.

Our production facility spans 5,000 square meters. Equipped with state-of-the-art machinery, we prioritize maximum accuracy, quality, and short lead times in our products.

With a professional engineering department, skilled specialists in production, and partnerships with over 30 well-known dental equipment brands, GALIT crafts expert solutions that satisfy the needs and preferences of even the most discerning customers.

We prioritize the durability of our dental units, as we value the longevity of our relationships with our customers!
